

PAF Systems.... unrivalled quality and innovation since 1972

Interlocking floor systems for commerce • industry • education • retail • leisure

The special ones!

PAF tektiles are available in ESD versions for electronic assembly, server and control room applications. It's the biggest selling interlocking ESD tile in the World and incorporates patented Inox microfibre technology to provide permanent anti static and conductive performance. No other interlocking tile comes close to the certified performance of this product. Tektile ESD can be interlocked with standard tektiles when non ESD areas are required. ESD logo tiles are available together with conductive tape and earth bonding. PAF Systems know a thing or two about ESD; we have been designing, manufacturing and supplying thousands of ESD workstations to the UK electronics industry since 1972!

PAF Tektiles are available in lock-mat™ open and lock-mat™ comfort formats for specialist anti fatigue solutions in manufacturing, refinery and marine applications. The unique interlocking system creates unlimited possibilities for workplace comfort and fatigue reduction. A full technical brochure is available upon request.

You can buy from us with complete confidence. PAF tektiles are manufactured to the highest certified standards and backed by one of the world's largest flooring companies with recent annual sales exceeding two billion pounds!

Every customer counts at PAF Systems whether you are flooring an entire retail empire or need a couple of square metres of bright coloured tiles for your kids playroom! Everyone goes the extra mile at PAF Systems....excellent customer service is our mission, put us to the test.... we will try to impress!

paf tektiles

- Quick-fit interlock systems
- No messy adhesives
- Tough, hardwearing and durable
- Easy to clean and maintain
- Looks great!

20 million tiles produced since 1983 and counting!

simple to fit • hard wearing • easy to clean • anti-fatigue • low maintenance • slip resistant • comfortable underfoot • looks great!

PAF Tektiles are quick and easy to install over virtually any existing floor with minimal surface preparation and no messy adhesives. The unique interlock system ensures rapid installation without lengthy and expensive business interruption.

PAF Tektiles are specially compounded using recyclable pvc to withstand high levels of vehicle and foot traffic and offer great resistance to impact, abrasion, moisture, chemical and oil damage. They offer excellent thermal insulation performance together with good anti slip and anti fatigue properties and they look great!

With nine dynamic colours and six surface finishes it's easy to create distinctive colour coded areas and walkways which can be quickly lifted and re-configured at a later date. PAF Tektiles are an excellent choice for exhibitions and show stands.

PAF Tektiles are low maintenance, easy to clean, comfortable underfoot, offer a dust free surface and look great!

We carry large stocks at our warehouse in Northants available for rapid despatch.

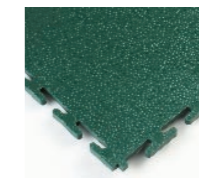

Logo tiles are available using water jet and specialist print techniques for attention grabbing applications.

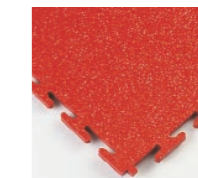

Standard tektiles measure 500mm x 500mm and are available in 5mm, 7mm and 10mm thick with flat, embossed, raised disk and grid surface finishes. Tapered ramp tiles can be fitted to leading edges to reduce trip hazard.

Tektile "slate" are great for offices and shops, they measure 420mm x 420mm x 5mm thick and are available in the full colour range.

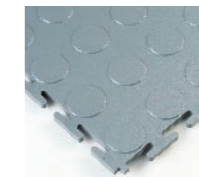

Full technical data sheets are available upon request. Standard colours are shown below, custom colours are available for larger orders.

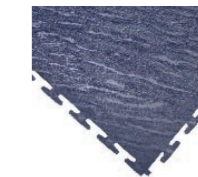

Flat

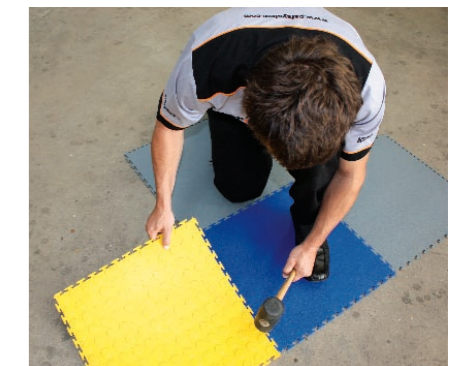

Embossed

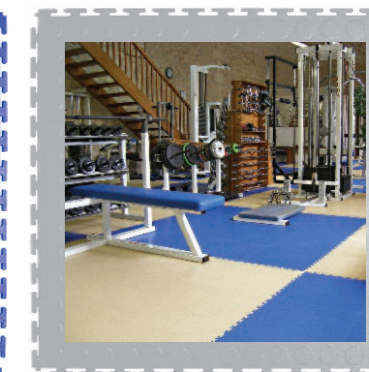

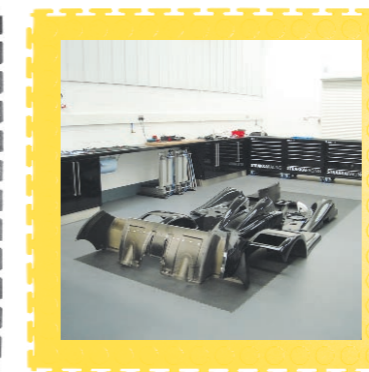

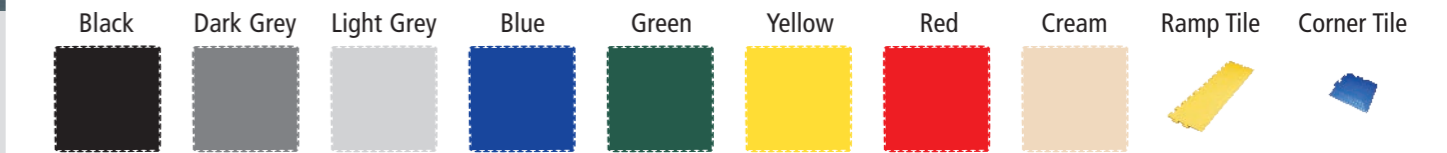

Raised Disc

Slate

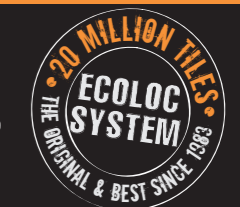

We offer a full installation service with our own fitters but most customers install themselves. Tektiles are very quick and easy to lay!
